Seamless integration.

For total control.

Introducing NERO, the scalable retrofit wireless automation solution that allows you to build your dream home, one switch at a time.

Exclusive to Schneider Electric, the NERO platform offers the freedom to customise a wide selection of innovatively connected devices, to provide simple, scalable solutions for the connected home.

NERO Product Range

PRODUCT IMAGE	PRODUCT IMAGE	DESCRIPTION	USE
	NEXUS NERO	**Communications Gateway** Connects up to 230 Devices via NEXUS Mesh Network Works with Android and IOS Devices for remote access Includes Ethernet Cable and Power Supply Access to all Environexus Software Plug-ins	The NEXUS-NERO is your Communications Gateway that allows all of your connected devices to talk to each other over the home wireless network. Designed to plug directly into your Wi-Fi router, the NEXUS-NERO enables advanced scenes, schedules, triggers and general device control to be accessed through your smart phone or tablet.
	NERO RELAY	**Retro-Fit On/Off Relay Module** 10 AMP, 2400W Relay 3 Switch inputs with optional temperature sensor Requires Active and Neutral Energy Monitoring of connected load	The NERO-RELAY is a small retro-fit 240v module that can be used to enable switching of an electrical device, such as lights, fans and appliances. It offers energy monitoring, multiple switch inputs and variable configuration settings.
	NERO DIM	**Retro-Fit Universal Dimmer Module** 0.65 AMP, 140W Electronic Dimmer 3 Switch inputs with optional temperature sensor Requires Active and Neutral Energy Monitoring of connected load	The NERO-DIM is a small retro-fit 240v module that can be installed behind your existing light switch to provide smart control of your LED Downlights. It offers energy monitoring, multiple switching inputs and variable configuration settings.
	NERO DRY	**Retro-Fit Dry Contact Module** 10 AMP, 2400W Relay 2 Switch inputs with optional temperature sensor Voltage Free Switching Does not support Energy Monitoring	The NERO-DRY is a small retro-fit module that provides voltage-free switching of a connected device. It is perfect for applications such as garage doors and door strikes.
	NERO BLIND	**Retro-Fit Blind Control Module** 4 AMP, 920W Blind Controller 2 Switch inputs with optional temperate sensor For use with existing 240V motorized blinds Also supports Venetian Blinds	The NERO-BLIND is a small retro-fit module used to enable 240v switched motor control of blinds, roller shades and Venetian slats. It offers energy monitoring, multiple switch inputs and custom blind positioning.
	NERO 2RELAY	**Retro Fit Dual on/off relay module** 4 AMP, 920W Relay Switching (x2) 2 Switch inputs with optional temperate sensor Requires Active and Neutral Energy Monitoring of connected load	Similar to the NERO-RELAY, the NERO-2RELAY is a small retro-fit module that can be used to enable on/off control capability of two connected circuits. It offers energy monitoring of both circuits, multiple switching inputs and variable configuration settings.
	NERO PLUG	**Plug in Relay Switch** 10 AMP, 2400W Relay Side mount USB (1 AMP) Designed for Indoor Use only LED Indicator for Power Consumption	The NERO-PLUG is an easy to install smart plug, that lets you wirelessly control whatever is plugged into it. Perfect for quick installations that require basic on/off control such as outdoor lighting or lamps. It offers energy monitoring and side mount USB charging.
	NERO MULTI	**Wireless Multi Sensor** Wireless Sensor, power by USB or batteries (CR123A) Temp, Light, Motion, Humidity, Vibration, UV Designed for Indoor Use only Mounting bracket & USB cable provided	The NERO-MULTI is a multi-purpose battery or USB powered sensor that can monitor temperature, lighting, motion, humidity, UV and vibration. With a 5 meter range and a 120-degree field of view, the NERO-MULTI is a versatile device that can be wall mounted or discretely recessed (optional recessor available).
	NERO REED	**Wireless Door Sensor (Open/Close)** Rechargeable Battery (VIA USB) Sensor for Open/Close Activities Small Profile designed for Indoor Use Includes mounting screws and magnetic strips	The NERO-REED is a slim-line rechargeable battery powered sensor that can be used to detect if a door or window is opened or closed. It includes extremely small magnetic strips to allow for easy installation.
	NEXUS LOCK	**Wireless Digital Deadbolt** Retro-Fit Deadbolt with Digital Keypad Includes NEXUS-LOCKMODULE for integration Allows up to 250 User Codes and Trigger Control Includes 4 x AA Batteries with remote status notification	The NEXUS-LOCK, powered by Lockwood is a battery powered smart connected deadbolt with keypad access that can be programmed for multiple users. The NEXUS-LOCK includes the NEXUS-COMMS-MODULE required for integration with the NERO system.
